

# Award-Winning Titles from Springer

Each year, the honor of being included in *Choice* magazine's **Outstanding Academic Title** list is bestowed upon a limited number of books in the academic publishing world. These titles have been selected for their excellence in scholarship and presentation, the significance of their contribution to the field, as their value as important—often the first—treatment of their subject. Comprising less than three percent of the titles submitted to *Choice* during the past year, **Outstanding Academic Titles** are truly the “best of the best.”

We are pleased to announce that the following books have been honored with this award.

## Probability Models

J. Haigh, University of Sussex, Brighton, UK  
2002/256 PP., 15 ILLUS./SOFTCOVER/\$34.95  
ISBN 1-85233-431-2
